To maintain and improve the quality of our infrastructure to promote a greater learning environment for our constituents. This committee meets to determine where our available capital funds can best be utilized. We examine all of our buildings and the grounds that encompass them. We forecast our project needs and we get the projects off the waiting lists and into the hands of the contractors that physically do the work. Updates are provided from our maintenance foreman and from our assistant superintendent for business. Our underlying goal is our mission statement, "To maintain and improve the quality of our infrastructure to promote a greater learning environment for our constituents."

This committee is an inclusive group and seeks to reflect the ideas and values of all members of the community, regardless of race, color, religion, gender, nationality, gender expression, national origin, disability, marital status, sexual orientation, or age.
